

Construction Update: February 25-March 3, 2019

*NOTE: All work is scheduled weather permitting and is subject to change without notice. Regular construction hours are **Monday-Saturday 7 a.m.-5 p.m.** although crews may work different hours, on Sundays, and/or evenings if needed.*

NIGHT WORK: Southbound I-25 will have the left lane closed from the beginning of the project to the bridge over Rio Bravo from **9 p.m.-5 a.m. Wednesday, Feb. 27.**

Eastbound Rio Bravo will have **the right lane closed from Prince Street to Broadway from 9 p.m. to 5 a.m.** each evening on **Thursday, Feb. 28** and **Friday, March 1** so that crews can set guardrails.

Northbound I-25 – Traffic on northbound (NB) I-25 has shifted to the left (west), with two (2) lanes open through the interchange. The NB on-ramp is no longer a merge lane and has shifted. Instead, it will continue as a third lane. The NB off-ramp will remain closed through spring 2019 (see map).

Southbound I-25 – Traffic is on a **new alignment at the I-25/Rio Bravo exit.** The I-25 southbound on-ramp is **closed** to westbound traffic through spring 2019 but is now open to eastbound traffic on Rio Bravo (see map).

Eastbound Rio Bravo – Traffic will shift to the left the evening of **Thursday, Feb. 28.** There will still be two (2) lanes open approaching the intersection of Rio Bravo and Broadway. There will be three (3) lanes open east of that intersection. **The right lane will be to access the I-25 southbound (SB) on-ramp ONLY** (see map).

Westbound Rio Bravo -- Has a dedicated left turn lane for westbound traffic to turn south on Broadway.

Broadway near Rio Bravo -- All new lanes for northbound and southbound Broadway are open.

SPEED LIMITS ARE REDUCED IN THE CONSTRUCTION ZONE.

NOTES: The multi-use path is closed about 400 feet west of the intersection of Broadway and Rio Bravo for safety for the duration of the project.

Wagner Road is also closed to through traffic. Also, there is no access to Electric Avenue from southbound Broadway.

Motorists should expect delays, particularly during morning and afternoon commutes or nighttime work, obey reduced speeds in the construction zone and watch for construction signs.
