

Construction Update: May 21-27, 2018

NOTE: All work is scheduled weather permitting and is subject to change without notice.

Regular construction hours are **Monday-Saturday 7 a.m.-5 p.m.** although crews may work Sundays and/or evenings if needed.

Northbound I-25 – Traffic remains shifted to the right lane and shoulder through most of the construction zone; northbound I-25 is reduced to two lanes just north of the I-25 northbound on-ramp. The I-25 northbound off-ramp is **closed** at Rio Bravo through spring 2019. Broadway is the detour (see map).

Southbound I-25 – Traffic has been shifted to new permanent lanes just west of the existing northbound lanes and north of the Rio Bravo interchange. The I-25 southbound on-ramp is **closed** at Rio Bravo through fall 2018. Broadway is the detour (see map).

Eastbound Rio Bravo – Is on new lanes between Prince and I-25. There is a dedicated left turn lane for eastbound traffic to turn north on Broadway.

Westbound Rio Bravo – Is on new lanes between Prince and I-25. There is a dedicated left turn lane for westbound traffic to turn south on Broadway.

NIGHT WORK: On **Monday, May 21** through **Thursday, May 24**, **eastbound Rio Bravo will be closed between Broadway and University** each evening from **8 p.m.-5 a.m.** for bridge demolition. The southbound I-25 exit at Rio Bravo will remain open, and motorists will be able to head west on Rio Bravo toward Broadway. However, **westbound Rio Bravo will be closed at the bridge**, so motorists east of the bridge will be able to enter northbound I-25 using the on-ramp and heading to Gibson Boulevard to access westbound Rio Bravo via southbound Broadway. Also, the **northbound I-25 entrance ramp will not be accessible to traffic heading eastbound on Rio Bravo**. Motorists will be able to access northbound I-25 by heading north on Broadway to Gibson.

NOTE: *There are also traffic restrictions and lane reductions on northbound and southbound Broadway near the Rio Bravo interchange.*

Electric Avenue – There is no access to Electric Avenue from southbound Broadway

SPEED LIMITS ARE REDUCED IN THE CONSTRUCTION ZONE.

NOTE: The multi-use path is closed about 400 feet west of the intersection of Broadway and Rio Bravo for safety for the duration of the project.

Motorists should expect delays, particularly during morning and afternoon commutes or nighttime work, obey reduced speeds in the construction zone and watch for construction signs.
